1. TASKING : NO CHANGE

(S/NF/SK)

2. SESSION: *Source did not acquire site immediately. (Several PI's)*

3. (S/NF/SK): Site is a building located in a noisy city. There is a wide avenue of cobblestone or brick outside the building. The building is of red stone, or brick, is old and very plain. Inside is a long corridor leading from double doors entrance and a staircase to the right of the entrance. There is a landing leading to the second of several stories and the windows on the landing are restricted by bars, or caged. There is a large room on the second floor, like a conference room. It looks out onto the avenue. The room is ornate, has a long rectangular table, photos (military and civilian men) on the wall, dark wood floors and red curtains on the window. There is a group of men in the room. One man in particular is short, fat and balding, and not particularly neat in appearance. He seems to be in charge and is not pleased with what the other men are reporting to him. Papers are strewn

over the table. ~~and there is a map on the wall~~
A map of the Western Hemisphere is on the wall;
tachs are in some cities, mostly European.

These men are discussing some aborted plan
which had what seems to be military/political
implications. Somehow a plane (aircraft) is
involved.

4. (S/NP/SK) FEEDBACK: Source was informed that more sessions
would be run against this same target.
